ADSG AWARDS 2023 - RECOGNISING SUSTAINABILITY LEADERSHIP IN THE REGION SUSTAINABILITY LEADER OF THE YEAR AWARD APPLICATION FORM

Organisation name:
Short description of the submission:
Name of person making the submission:
Position:
Phone number:

Email:

DEFINITION: This award is for individuals in leadership positions that have shown personal commitment to sustainability and demonstrated personal leadership in implementing sustainable responses to environmental, social or economic challenges.

This award will be judged on the following criteria:

- **Integration of sustainability:** How has sustainability been integrated by leadership? Including sustainability as part of an organisation's regular strategy and governance structure is critical. Submissions need to demonstrate that sustainability activities are not merely one off or discretionary.
- **Plan/Do/Review cycle:** Demonstrate what the sustainability leader actually did and how this was planned, implemented and reviewed. Keeping track of the plans and checking the results against objectives/targets, described in action plans, is key to truly sustainable achievements.
- **Impact:** All submissions need to address what sustainability impact was achieved by leadership. Sustainable performance must drive real impact.
- **Innovation and thought leadership:** How was the sustainability leader different from business as usual? Sustainability challenges require new ways of doing things or new ways of approaching existing activities. Submissions should demonstrate the thought leadership and innovation that took place.
- **Recognition:** How was the sustainability leader recognised/celebrated internally/externally? Acknowledging that environmental and social aspects are becoming important concerns to an organisation makes each sustainable activity more embedded.
